

**Module Title****LESSON 1:***Lesson Plan Title**Approx. time:* \_\_\_\_\_**Lesson overview:**

*Explain the strategy of the activities included in the lesson as well as summarize the major points to be covered.*

**Students will demonstrate the ability to:**

1. *List each of the Key Competencies addressed by this lesson.*
- 2.
- 3.
- 4.

**Prerequisites:**

*Identify any previous courses, modules, or lessons that should have been completed before this lesson.*

**Content required:**

- 1) *Specify all of the content required for teaching the lesson.*
- 2) *Refer to the content outline provided for the lesson.*

**Resources:**

*Identify specific references available to prepare for teaching the content outlined. Refer to the web-site for current details.*

**Materials checklist:**

- ✓ *List every item necessary to conduct the learning activities.*
- ✓ *Include any supplies required by the students or teacher.*
- ✓ *Review each activity thoroughly to compile a complete list.*

**Equipment checklist:**

- ✓ *List any type of equipment that might be required to deliver the lesson.*
- ✓ *Be sure to include overhead projector, presentation equipment, computers, etc.*

**Teaching strategy:****Day 1**

1. *Identify step-by-step each and every activity to be conducted by the teacher during each class session.*
2. *Keep the steps simple, short, and easy to read.*
3. *This is the teacher's script.*
4. *Always assume nothing will go right. Try to incorporate a "back-up" for difficult concepts to be taught or procedures to be accomplished during the class session.*

**Day 2**

1. *Try to start out each day with a review or recap of what happened the day before when appropriate.*
2. *Incorporate assessment methods to determine progress of the students throughout the entire lesson.*

**Day 3**

1. *It is also helpful to identify the amount of time which should be budgeted for multiple activities during one class session.*
2. *A solid lesson plan allows the teacher to be proactive in class rather than reactive.*

**HOT Activities:**

1. *This section should include instructional activities that specifically utilize the higher order thinking skills -- knowledge and comprehension of content, application of skills, and practice in analysis, synthesis, and evaluation processes.*

**Assessment methods:**

- *Each Key Competency should be addressed in the assessment methods.*
- *Attempt to vary the types of assessments used.*
- *Provide choices of assessment methods to accommodate different teaching styles.*

**Teacher evaluation and comments for improvement:**

*Hopefully this space will be completed by teachers using the lesson plan with their comments and suggestions for improvement.*
